ACADEMIC PROJECT

- ❖ **Project:** Automatic Ration distribution system using PLC AND SCADA.
- ❖ **Description:** The objective of this project is to avoid illegalness, and save government money, in manual system and to save the time of customers. This is very transparent system user see on SCADA screen.
- ❖ **Technologies:** PLC, RFID, and SCADA
- ❖ **Mini Project:** Integrated Building system.
- ❖ **Description:** The objective of this project is to improve occupants comfortness and make building safe.
- ❖ **Technologies :** Different types of sensors Transducers and microcontroller 8051.

Diploma project**Project:** microcontroller based two level security system for banking lockers.**Description:** To increase security of locker does not open for unauthorized persons.**Technologies:** microcontroller 8051.**EXPERIENCE**

- ❖ **Work Experience In IB Automation Engineering. Projects Private Ltd :**
- ❖ **DURATION:** From DEC 2016 To (Currently Present).
- ❖ **ACTIVITY: FOR EMERSON**
 1. Project Execution & Planning for Transmitters order.
 2. Preparation of Bill Of Material for Transmitters (Pressure, Flow, DPT, Radar Level Transmitters , Ultrasonic Level Transmitter, & Temperature Transmitter etc.).
 3. Preparation of Instrument Datasheets for the Transmitters.

4. Preparation of General Arrangement Drawing.
5. Co-ordination with Client/Customer for timely submission & final approval of Project Documents.
