Defence & Aerospace, Powai Campus – 14th August 2014 to 17th February 2018

(Third Party Payroll- Ashish Enterprises & Fabtech Consulting Engineers)

3 years and 7 months of experience in phases of **Planning and Execution** – Sub-contracting and vendor development, manufacturing assembly and project management of EPC projects.

- Preparing Complete Plan & schedule for detail Aerospace projects & activities required for execution.
- Responsible in preparation of activity based cost estimate.
- Review policies and procedures to identify areas for achieving cost savings and optimum usage of in house assistance.
- Establish estimated man-hours, consumables, BOM, equipment line-up, sub-contract quotation and contract summary.
- Controlling projects by preparing & monitoring weekly & monthly progress reports based on project budget & schedule, handling the complete project management cycle
- Daily production planning and monitoring.
- To review technical documents from vendors/sub-contractors and customer.
- Looking after customer requirements to achieve maximum quality products.
- To participate in client and contractor meetings to resolve detail engineering issues.
- Responsible for resolving logistic discrepancies.
- Executing end to end realization of sub-assemblies with area of focus on Raw material distribution, Precision manufacturing, secondary treatment, assembly and testing.
- To coordinate with various cross functional groups and customer.
- Evaluating the facilities available at vendor's premises for manufacturing of equipment.
- Planning for allocation of required manpower for the fabrication.
- Knowledge of Welder performance qualification (WPQ) and Performance qualification record (PQR).
- To study the root cause in case of overruns and raising additional claim for the same.
- Acquainted with EIL, Shell working standards.
- Executing projects in reference to EIL standards, U-stamp jobs, LSTK projects, Oil & Gas projects.
- Highlighting bottle necks in project execution stage to management and taking preventive measures to resolve it.

ACCOMPLISHMENTS:

- Monitored supply chain of more than 900 components simultaneously.
- A part of team that successfully delivered a time critical project before time.
- Mentored 2 in-plant trainees for their projects and internship.

IN-PLANT TRAINING:

Desai Autocom Pvt Ltd - 01 June 2013 to 30th June 2013.

Successfully completed 1 month of in plant training at Desai autocom Pvt Ltd, Wahgoli, Pune in the Design and development department.

ACADEMICS:

Sr. No	Examination	University	Year	Marks	Class
1	B.E	Shivaji University	2014	63.75%	1 st class
2	H.S.C	Mumbai University	2010	72%	1 st class
3	S.S.C	Mumbai University	2008	82.42%	Distinction

TECHNICAL SKILL SET:

SAP - Material Management Module and MS Office
ASME- Sec VIII Div. 1 & CCPM
Modeling software viz, UG-Nx, CATIA, & Solidworks
AutoCAD Working of DIN, PLM-Enovia, ERP

EXTRA CURRICULAR ACTIVITIES:

1. Secretary (Society of Automotive Engineers) at college level. Participated in SAE-BAJA and various technical events of SAE. Organized visit to ARAI, Pune for studying NVH tests.
2. Won GD-PI competition at University level.
3. Participated in technical paper presentations at inter-college level and was a part of organizing committee for technical and sports fest, viz. PARIKRAMA and EUPHORIA.
4. As a part of social activity undertook cleaning of an Old-age home in Kolhapur and set up a blood donation camp in college.

PERSONAL DETAILS:

Date of Birth: 23rd November 1992.
Language Proficiency: English, Hindi, Marathi, German
Hobbies: Vocals, Swimming, Reading, Watching and playing Soccer.
Willing to Relocate: Yes, Open to travel for work.
