**4. EXPERIMENTAL PROJECT :**

**ETABS** is an engineering software product that caters to multi-story building analysis and design. The title of our project was 'ANALYSIS OF MULTI-STORY BUILDING BY E-TABS SOFTWARE' .which is basically working on structure analysis. Modelling tools and templates, code-based load prescriptions, analysis methods and solution techniques, all coordinate with the grid-like geometry unique to this class of structure. Interoperability with a series of design and documentation platforms makes ETABS a coordinated and productive tool for designs which range from simple 2D frames to elaborate modern high-rises.
