SSC	Shri Chh. Shivaji vidhyalay Bor	State Board	2011	79.20%

PROJECTS UNDERTAKEN

BE Project

Title: "Solar Electric Bicycle".

Abstract :-

In present scenario a Solar Electric Bicycle system will help to solve the major problems of fuel and pollution. There is no doubt that the emission of carbon-dioxide from an automobile exhaust is a concern for the increasing rate of global warming. The fuel prices in India and around the world is increasing day by day thus there is a tremendous need to search for an alternative to conserve these natural resources. So in this project with the help of solar energy and Electric supply we run the bicycle more effectively

EXTRA CURRICULAR ACTIVITIES

- Completed motor rewinding workshop at Abhinav College under guidance of EarnInstitute, pune,2013-2014.
- Completed industrial project on Automatic power factor correction based onmicrocontroller 8051 .
- Made different electrical and electronics projects for diploma students.
- Completed different mini projects like PWM speed control of Dc series motor, LDR based Automatic light control , DTMF based home automation system, Automatic water level control.

PERSONAL SKILLS

- A good team leader
- Adaptable, quick learner, time bound
- Comfortable with new assignments
- Cricket, Kabadi, kho-kho player.

WORK EXPERIENCE

- **Precision Automation Robotic (I) pvt. Ltd.**
Technical Engineer-
Duties:
 - Layout of control panel and making control panel as per customer requiriments.
 - Mounting of components and connecting power & control wiring as per design.
 - Testing of control panel as per schedule.
- **Uni-Automation (I) Pvt. Ltd.**
Project incharge -Defence project
Duties:
 - Making production planning and operators planning.
 - Placing work orders and Clearing reports for work order in ERP system.
 - Testing of products
 - Customer handling and onsite problem solving.
