

Respected Sir/Ma'am

I am writing in response to your job notification for the position of Electrical Engineer. Electrical and electronics engineer with 2 years 6 months of experience at an electrical pumps manufacturing facility. Familiar with induction motor and peristaltic pumps testing methods. Excellent interpersonal and communication abilities, and practical approach to problem-solving and a drive to see things through to completion. I am a graduate in the stream of Electrical and Electronics Engineering with an aggregate in First Class, relevant work experience and the skillset required to make a positive and valuable contribution to your company.

My professional background experience includes testing advanced electrical systems, implementing maintenance strategies, designing electrical components and identifying recurrent electrical systems issues and providing recommendations. Working in high pressure challenging environments has developed my capabilities in creative problem solving, multi-tasking and executing design projects of various scopes successfully. My proficiencies in computer-aided design have enabled me to perform high-level tasks effectively requiring minimal assistance. My superior skillset and experience makes me an excellent candidate for the position.

I hope you find my advanced capabilities, valuable experience and relevant qualifications a suitable fit for the advertised position. I am a self-motivated individual who thrives on succeeding in challenging situations. If you would like to contact me, please call me or by email. I eagerly seek an opportunity to hold aloft the reputation of your organization in the competitive world with my own original contributions. I close with great hopes and aspirations.

Sincerely,
Kingsly Augustine
