## MEGA AND MINI PROJECTS

### • ELECTRICAL BASED MOTOR INTERLOCKING.

Description: In rural industrial areas like small scale sugar industries, jaggery industry, stone crusher. The PLC system is not so efficient because the maintenance cost of PLC and SCADA system is more than electrical appliances. The maintenance of PLC is only done by the skilled technician and officer. By using our concept we will try to resolve this problem by efficient way and reduces time to reaire system

### • Mobile Phone Detector.

Description: The main concept of the project is to detects the mobile in restricted zone.
